PPT Test file

Convert an Entire PowerPoint Presentation to PDF with Python

- The **Presentation.SaveToFile(str, FileFormat)** function provided by Spire.Presentation for Python enables you to convert PowerPoint presentations to various file formats, including PDF, HTML, ODP, DPS, DPT, PCL, PS, XPS, and more.

- Here is a simple example that shows how to convert a PowerPoint presentation in PPTX or PPT format to PDF using Python and Spire.Presentation for Python:
